

**Kansas Register Notice  
State of Kansas  
Department of Health and Environment  
Public Notice of Proposed Permit Renewal Action**

The Kansas Department of Health and Environment (KDHE) received a Resource Conservation and Recovery Act (RCRA) hazardous waste Part A and Part B permit renewal applications from Safety-Kleen Systems, Inc. (Operator) and David R. Ruffin (Owner). The facility is located at 600 East Trail Street, Dodge City, Kansas and has EPA identification number KSD980686844.

KDHE is providing notice of its intent to renew the RCRA hazardous waste management permit for the facility. The facility will be permitted for storage of hazardous waste in approved containers and tanks, in accordance with 40 CFR 264 Subpart I and J, in the hazardous waste storage area. The container storage area will be permitted to handle a maximum capacity of 2,304 gallons. The tank storage units will be permitted to handle a maximum capacity of 10,125 gallons.

In October 1985, the State of Kansas received final authorization from the U.S. Environmental Protection Agency (EPA) to implement a hazardous waste management program in lieu of the federal program, except for those portions covered by the 1984 Hazardous and Solid Waste Amendments (HSWA). Prior to 1985, KDHE had interim authorization to implement the program under EPA supervision. In September 2013, authority for the corrective action portion of the RCRA program was delegated to the State of Kansas.

The draft permit sets forth in a concise document all of the applicable requirements that KDHE will require the Permittee to comply with during the 10-year duration of the permit. The draft hazardous waste permit includes standard permit conditions, general facility conditions,

provisions for storage in containers and tanks, air emission standards, as well as corrective action requirements. Section VI addresses corrective action for all releases or future releases of hazardous waste or hazardous constituents from any solid waste management unit (SWMU) or area of concern (AOC) at this facility. Section VI includes general conditions, process steps, and a facility submission summary for corrective action activities.

The draft permit is being considered for issuance under authority of the Kansas Statutes Annotated (K.S.A.) 65-3430 *et seq.* and Kansas Administrative Regulations (K.A.R.) 28-31-4 through 28-31-279a and Subtitle C of RCRA, as amended by HSWA. Documents that support the permit conditions specified in the draft permit are part of the administrative record. Applicable regulations are found in 40 CFR Parts 124, 260 through 264, 268, and 270, as specified in this permit. All citations found in the draft permit to federal regulations are for the sake of convenience. Some modifications to federal regulations by applicable state regulations are noted in this permit, but all modifications to federal regulations by state regulations are incorporated. To the extent that state regulations exclude any sections of applicable federal regulations, those sections are not in effect. In the instance of inconsistent language or discrepancies between conditions found in the permit, state regulations, or federal regulations, the language of the more stringent provision will govern; otherwise, state law governs.

State hazardous waste laws require that the public be given at least 45 days to review the administrative record for the draft permit prior to KDHE taking a final action. The purpose of having a public comment period is to ensure that interested parties have the opportunity to evaluate the conditions specified in the draft permit and to provide their input into the permit decision-making process. A copy of the administrative record which includes the draft permit, the fact sheet, the permit application, and all information pertaining to this permit action is

available for public review from January 2, 2014 through February 18, 2014, Monday through Friday, during normal business hours at the following locations:

Kansas Department of Health and Environment

Hazardous Waste Permits Section

1000 SW Jackson, Suite 320

Topeka, Kansas 66612

Contact: Mostafa Kamal

Tel: (785) 296-1609

Dodge City Public Library

1001 North 2<sup>nd</sup> Avenue

Dodge City, KS 67801

Contact: Sam Shipley

Tel: (620) 225-0248

The administrative record can also be accessed on the KDHE website at:

[http://www.kdheks.gov/waste/p\\_pubnot\\_hw.html](http://www.kdheks.gov/waste/p_pubnot_hw.html)

As specified in 40 CFR 124.11, during the public comment period any interested person may request a public hearing in writing which states the nature of the issues proposed to be raised in a public hearing. In the event that a hearing is scheduled, advance notice of the date will be given to the public. In accordance with 40 CFR 124.12, during a public hearing, any person may submit oral or written statements and data concerning the draft permit or Part B application. The Secretary of KDHE will make the decision regarding the issuance of the permit after the

close of the public comment period. The Secretary will consider all comments received during the public hearing and comment period.

When the final decision to issue or deny the permit is made, notice will be given to the applicant, all persons who submitted written comments, and those who requested notice of the final permit decision. If none of the comments received during the public comment period result in revision(s) to the draft permit, the permit will become effective immediately upon issuance of the final permit decision. If comments received during the public comment period result in revision(s), the permit will become effective 30 days after service of notice of the final decision to allow for public review of the revisions in accordance with 40 CFR 124.15 and K.A.R. 28-31-124(c)(8). Appeals of the final permit decision for the permit must be filed within 15 days after service of notice in accordance with K.S.A 65-3440 and K.S.A. 77-601 *et.seq.*

Robert Moser, M.D., Secretary, Kansas Department of Health and Environment
